

Improving the health of the people in our communities by
providing quality, compassionate care to everyone, every time

Thank you for choosing Sparrow Laboratories for your lab work. Due to the type of testing we will be performing and for your safety we have performed two separate venipunctures on you today. This provides extra assurance of an infallible testing process. Please help us verify this process was followed.

_____ I was successfully poked two separate times today

_____ I had the opportunity to review my blood samples for proper identification (correct name and spelling, age etc).
