

# COVID-19 Drive-Thru Testing Guide

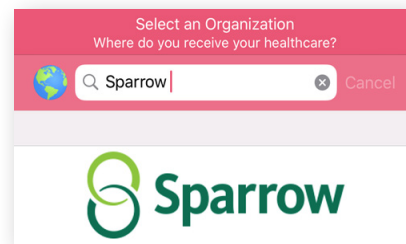

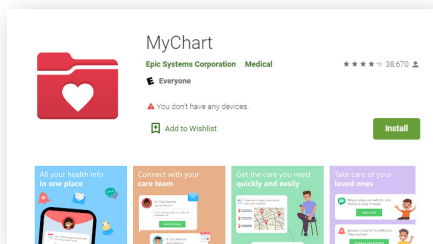

**Thank you for choosing a Sparrow drive-thru location** to get your COVID-19 nasal swab or antibody test. We are committed to testing everyone that wants a COVID-19 test, even if you don't already have an order from a physician. This guide will help you **move through the drive-thru line quicker** and get your lab results as soon as they are available.

1.

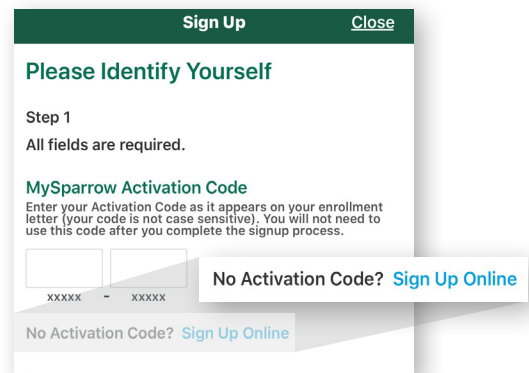

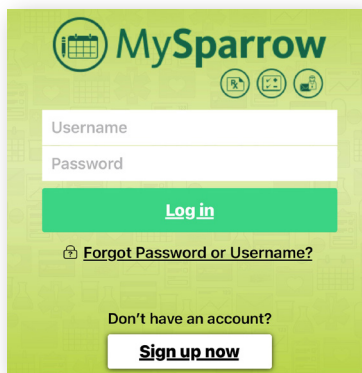

**Log in to your MySparrow account** through your mobile device or computer. You will need a MySparrow account to answer required testing questions, create an order, and to view your test results.

## If you need to create an account:

- For the best experience, download the **MyChart (MySparrow) app** from the iPhone AppStore or Google Play Store. For easy access, scan the QR code to the right to get directly to the app store of your choice.
- After installation of the MyChart (MySparrow) app, select **Sparrow** as your organization.

- Click the **Sign Up Now** button at the bottom of your screen. If you do not have an activation code from a Sparrow caregiver, choose the **Sign Up Online** option and follow the instructions.

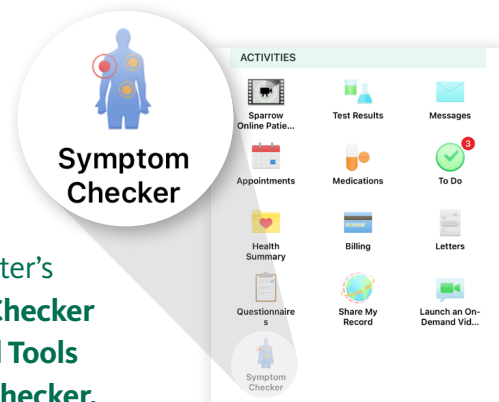

## If you have an account:

- For the best experience, use the **MyChart (MySparrow) app** and log in. If you don't have the app, download from the iPhone AppStore or Google Play Store. After installation of the MyChart app, select **Sparrow** as your organization.
- You can also log in through your web browser at **MyChart.Sparrow.org/MyChart**.

2.

Answer questions about your symptoms in the **COVID-19 Symptom Checker**. The Symptom Checker allows you to self-order the test and save registration time! This information is required per government regulation.

- In the MyChart app, click on the **Symptom Checker icon** at the bottom of the screen.
- When accessing your account from a computer's web browser, you will select the **Symptom Checker** through the **Health Icon** and under **Medical Tools** in the dropdown menu, click on **Symptom Checker**.

3.

When you reach the lab caregiver, give them your personal identification, insurance card, and any lab paperwork. They will complete the rest of the labs process.

4.

You will be notified as soon as your results are ready.

**Thank you for choosing Sparrow Laboratories.**
